

Miguel Galperin

Fullstack Engineer

EXPERIENCE

UI/UX Product Designer

SuperUber (Brasil)

Apr 2022 - Oct 2022 - 6 months, Rio de Janeiro

As a UI/UX Product Designer at SuperUber, I collaborated with the CEO and Product Team to prototype, design, and deliver an immersive 3D experience for the 'Tunnel' installation at Museo Light. My specific contributions in sound design and spatialization enhanced user engagement and interaction. The technologies I worked with include Unity, SuperCollider, and Github.

Lead Web Developer

Atlanticx (USA/Argentina)

Mar 2021 - Present - 2 years, Buenos Aires

As the Lead Web Developer at Atlanticx, I spearheaded the design and implementation of educational products' websites ensuring optimal functionality and user engagement. My role also involved strategic decision-making and leadership as the founder of the organization. The technologies I worked with include Javascript (React), Mux (Video), Tina (CMS).

Art Director

Teatro Colón (Argentina)

Nov 2011 - Marzo 2022 - 10+ years, Buenos Aires

Designed technology for stage productions at CETC (Centro de Experimentación Teatro Colón). From immersive environments with video-mapping and spatial sound to engaging audience participation via mobile apps, I lead research, development and implementation of innovative stage tech for numerous theater and music productions.

EDUCATION

M.A in Electroacoustic Music Composition

Mills College

1999 - 2001, Oakland

Ph.D in Music Theory

University of California

2001 - 2008, Davis

PROFESSIONAL TRAINING

CS50: Introduction to Computer Science

Harvard University

2023, Online

Completed a comprehensive introduction to computer science, gaining updated knowledge in algorithms, data structures, software design, and web development.
